SVM UPDATE

in 500 words or less

Texas is Calling Ya! Register for VSS2024 by 6/28/24 to take advantage of early bird pricing! Join SVM and the vascular medicine community, Sept. 19-22 at the Marriott Marquis in Houston, TX. The agenda includes VSS favorites like Speed Mentoring, Vascular Jeopardy, Cases on the Rocks, and POCUS. New this year: a workshop on Hypertension for the Vascular Medicine Specialist and a Swollen Leg Symposium with Compression & Wound Care Hands-On Product Demos. [Register Today!](#)

Vascular Medicine (VMJ) has dedicated the June 2024 issue to **rare vascular diseases**. Once the issue is published online, all articles will be freely available to everyone for 1 month. This collection of original research, reviews, and images shine a spotlight on tremendous diversity of rare vascular [read more ...](#)

NEW: International Member Category – SVM is offering International Membership to non-member vascular medicine physicians and professionals (MD, DO, MBBS, PhD, PharmD or equivalent) in countries outside of the United States. With an annual fee of only \$34.00, this membership category opens the door to many opportunities and benefits for our international colleagues, such as member pricing for VSS2024, as well as professional development and networking opportunities. [Learn More](#)

[The SVM Michael R. Jaff, DO, MSVM Fellows Leadership Institute](#) graduated twenty Vascular Medicine fellows at the final session in June. The Jaff Institute is designed to create an intensive learning community connecting Vascular Medicine fellows and faculty to advance clinical knowledge and career development. The “Call for Applications” for the 2024-2025 SVM Jaff Institute will begin July 1 and end August 1, 2024. Sessions will begin in October. Stay tuned for more information on the application process.

The SVM Vascular Medicine Fellowship Training Program Toolkit was designed to provide guidance and useful tools for developing, or enhancing, a vascular medicine fellowship training program. The Toolkit includes sections on recruitment and selection process, overall goals and objectives, clinical and didactic components, evaluation process, facilities and faculty description, and funding source. [View the Toolkit](#)

Help shape the future of lymphatic science and care! The NIH Request for Information (RFI) from the National Commission on Lymphatic Diseases (NCLD), seeks to gain information to address challenges and needs for the lymphatic community. **Deadline: Jun 28th.** [More Information](#)

SVM Vascular Medicine Journal Club will resume on Monday, September 9, 2024, 8:00 PM ET, with a [review of the new PAD Guidelines](#).

Thank you for all you do!

Ido Weinberg, MD, MSc, MHA, FSVM
President, Society for Vascular Medicine
